

Setting Up:

Brother P-Touch E550W Label Maker

1. Prepare the Device

- Ensure the label maker is fully charged.
- Open the back cover and insert the 9mm wide, strong adhesive yellow tape (black text).
- Close the cover and turn on the device.

2. Enable Wi-Fi Mode

- Press Menu
- Navigate to WLAN -> Press OK
- Select Network Mode -> Press OK
- Choose Direct Mode -> Press OK
- Wait for a moment while settings apply.

3. Confirm Network Settings

- Press Menu -> Navigate to WLAN -> Press OK
- Select Network Settings -> Press OK
- Ensure Direct Mode is selected -> Press OK
- Confirm on the next screen -> Press OK
- Confirm the default password (00000000) -> Press OK
- Press OK again to save settings.

4. Verify Connection

- Press Menu -> Navigate to WLAN -> Press OK
- Select Network Status -> Press OK
- Select Direct Mode is displayed -> Press OK
- On the next screen, press OK again.

5. Check Wi-Fi Status

- Look for a Wi-Fi symbol with a [Đ] in the bottom-right corner of the screen.
- If missing, press the Wi-Fi button (bottom-right of keypad) to enable it.
- The device will search for Wi-Fi and display the [Đ] symbol, once connected.

Setting Up:

Mobile Device & Connecting to Label Maker

1. Get Your Mobile Device Ready

- Can use an Apple or Android device
- Download & install the Brother **Pro Label Tool** app.
- Download the **LYIT label template** to your device.

SCAN FOR LINKS

2. Load the LYIT Label Template

- Locate the downloaded LYIT label template on your device.
- Select the file and open it using the Pro Label Tool app.
- The LYIT basic label template will open in the app.
- Save the template to your device by giving it a name.

Now, the template is saved in the app and ready for use!

3. Navigating the Label App

- When you open the Pro Label Tool app, you'll land on the main screen.
- Tap "My Labels".
- Select and open the LYIT label template.

4. Connect Your Mobile Device to the Label Maker

- Go to your device settings.
- Select Wi-Fi.
- Find and select the Label Maker from the list of networks.
- Enter the password: 00000000.
- Tap Join (✓ A tick confirms the connection).

5. Test the Connection with a Print

- Go back to the Pro Label Tool app.
- Open the LYIT label template.
- Tap Print (top right corner).
- Tap Print again to complete the test.

You're all set! Your mobile device is now connected to the label maker and ready to print LYIT labels.
